

# Help us improve our schools

## Attend public hearings on “receivership” and school improvement plans.

Under a new State law, receivership schools must make significant gains in student achievement. If we fail to meet State targets, an outsider receiver will be appointed to take over these schools.

These are working sessions where we will review a draft improvement plan and discuss ways our community can work together for positive change.

### All public hearings will be held at Central Office

| DATE             | TIME                  | TOPIC             |
